

## EVC 143 Estuarine Wetland/Coastal Saltmarsh Mosaic (Mapping unit only)

This localised mapping unit is restricted to an area on the Collier Hill and Lake Wellington 1:25 000 topographic map sheets where extremely complex aerial photograph patterns are evident between Estuarine Wetland and Coastal Saltmarsh. For further information on the species in the two EVCs in the mosaic, refer to Coastal Saltmarsh EVC 9 and Estuarine Wetland EVC 10.
